EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Tyler Stevenson on March 2, 2006.

The application has been amended as follows:

Amend Claim 6 to read: A method according to claim 28 wherein the nanodispersion comprises as component (a) a compound selected from the group consisting of a phospholipids, a hydrated or partially hydrated phospholipids, a lysophospholipid, and mixtures thereof.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the prior art does not teach methods of preparing an aqueous monodispersion nanodispersion wherein the average sizes of particle diameter is <50nm and wherein the dispersion is prepared by mixing the recited polyoxyethylene coemulsifiers with the phospholipids, lipidic component and ethanol in the claimed amounts and then adding to the mixture a water phase in the absence of high shear or cavitation forces. Further, the prior art does not suggest the unexpected improvement in clarity and stability of the prepared product when the phospholipids component and the polyoxyethylene coemulsifiers of the instant process are used together.

Art Unit: 1617

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
